**Pharmacy Series**

## Pharmacy Series

With our Pharmacy Series medicine gets available in a simpler way for more people. With these kiosks, you can sell medicine, both with and without prescription. This is possible because of our new technology that makes age verification and identification possible. The machine has customizable shelving, which allows you to determine how large you want it to be. You can easily modify and add content to the user interface. It is possible to fill it with useful information for the customer and campaigns!

We operate all the underlying technology for you and all kiosks are supplemented with operations service. We will support you through this exciting journey, so you can focus on making profit. Be part of this unique and exciting concept!

### Our other products:

DVD Rental Xpress
